# Oregon RV Poll

November 6 - November 12, 2020

## 18A. Consequences of other states adopting VBM — Voter fraud will increase

As you may know, because of the COVID-19 pandemic and the need for physical distancing, many states are looking to Oregon as a model for how they might conduct their general elections in future elections. That would involve sending a ballot by mail to every registered voter, and giving voters an opportunity to return their marked ballot by mail or to a dropbox. If other states adopt the Oregon model, how likely do you think it is that the following will happen in future elections?

# Oregon RV Poll

November 6 - November 12, 2020

## 18C. Consequences of other states adopting VBM — Voter turnout will increase

As you may know, because of the COVID-19 pandemic and the need for physical distancing, many states are looking to Oregon as a model for how they might conduct their general elections in future elections. That would involve sending a ballot by mail to every registered voter, and giving voters an opportunity to return their marked ballot by mail or to a dropbox. If other states adopt the Oregon model, how likely do you think it is that the following will happen in future elections?
